

Our solution to connect your offices around the world

Business Talk

A truly global fixed-line voice service enabling high-quality calling between corporate sites and any destination in the world. This dynamic and versatile service empowers our customers to address the various challenges of maintaining an enterprise voice environment, including real-time digital tools for ordering, monitoring and control.

The result? Improved productivity, visibility and agility for your business and a seamless collaboration experience for your employees. All delivered with significant cost savings and control for your company.

Business

The comprehensive voice solution to address your telephony needs

Handle all your calling needs, on-net or off-net, inbound or outbound.

Performance and quality

Simplicity

- Consolidated and centralized voice connections from multiple countries
- Visibility of all sites
- Internet network connection for small sites

Efficiency and reliability

- Offering the broadest coverage for on-net and off-net services
- UC interoperability certifications from best-in-class vendors
- High performance
- UC ready

Cost optimization

- Centralization
- Immediate savings on traffic
- Flexible access types available to enable savings for small sites

Business Talk goes digital

Buy and deploy numbers in a few clicks in many countries.

You can now order, configure and self-manage your international voice services in real time for maximum customer autonomy, flexibility and control.

Why Orange

Dedicated support

Our teams are able to support you 24x7 all around the world.

Local voice services

Want to move away from having to source separate local and long-distance providers? Orange can help you consolidate all your in-country voice needs, including LVS, to a centralized SIP solution in multiple markets.

Tailored invoicing

Choose the invoicing that best suits your needs, local or central billing, depending on how you want to manage your costs.

Customized reporting tools

Track and manage your traffic consumption online with our online service management portal.
